

Close-up Cup

Find the coolest things to look at close-up

Bring an interesting thing from home to look at under the microscope and prepare to amaze your classmates

Lab procedure:

1. Bring a sample from home to view in the microscope in class.
2. In class, take a few minutes to view your own sample and fill out your information label below.
3. Check out every one else's sample and leave compliments on their lab sheets.

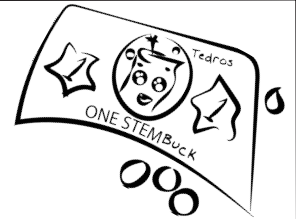

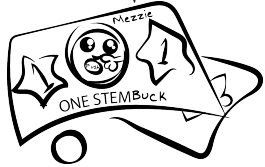

My Sample is: _____

Here is a drawing of my sample:

Something cool you should notice about my sample is:

Compliment Box

Name: _____
