

Mystery Powder Sample 1

1. Draw and describe the shape of the powder under a microscope.

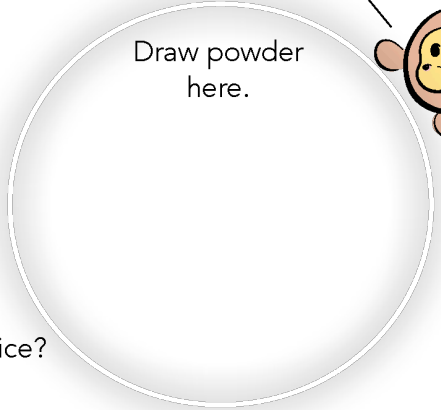

2. What happens when you mix it with water?

3. What happens when you mix it with vinegar/lemon juice?

4. Compare to the chart and guess the powder.

The first one's always fun!

Draw powder here.

Mystery Powder Sample 2

1. Draw and describe the shape of the powder under a microscope.

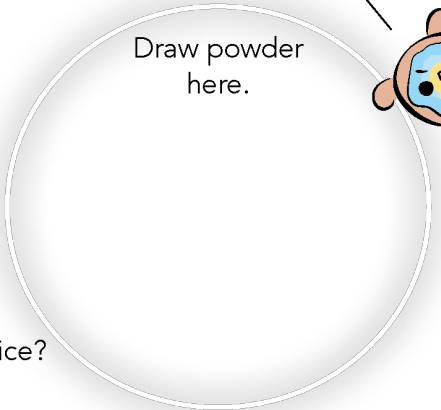

2. What happens when you mix it with water?

3. What happens when you mix it with vinegar/lemon juice?

4. Compare to the chart and guess the powder.

Now I'm getting the hang of this

Draw powder here.

Mystery Powder Sample 3

1. Draw and describe the shape of the powder under a microscope.

2. What happens when you mix it with water?

3. What happens when you mix it with vinegar/lemon juice?
